

# Course Syllabus

**Course Code:** EDL077

# Middle School Digital Art & Design

## Course Description

There are so many different types of art in this world—fine art, classical art, visual art—but the impact of digital art and design is all around us, often in ways that you probably aren’t even aware of! After taking Digital Art and Design, you’ll enjoy a deeper understanding and appreciation for all things digital as you explore this special genre of art found in everything from advertising to animation to photography and beyond. In this course, you’ll learn about the evolution of art, the basic principles of art and design, and the role of art in politics and society. Additionally, you will actually create your own digital art and make it come alive. Give your creative side a boost with this Digital Art and Design course!

## Required Materials

### Unit 2

- Digital camera or cell phone with a camera feature (requires uploading digital photographs taken by student)

### Unit 3

- Drawing paper and colored pencils or markers or drawing software (requires creating a logo)

### Unit 5

- Drawing paper and colored pencils or markers or drawing software or animations software (requires creating a character that could be animated)

### Unit 6

- A computer or phone with a recording feature/app (will need to record a “radio” commercial)

## Table of Contents

Unit 1: 21st Century Art . . . . .	3
Unit 2: Say Cheese! . . . . .	4
Unit 3: The Evolution of 2-Dimensional Art. . . . .	5
Unit 4: Graphic Design . . . . .	6
Midterm Exam . . . . .	7
Unit 5: Magic in Motion: Animation . . . . .	8
Unit 6: Sound and Music . . . . .	9
Unit 7: How to Look at and Evaluate Art . . . . .	10
Unit 8: Mixing Up Art . . . . .	11
Final Exam . . . . .	12

## Unit 1: 21st Century Art

---

### Unit Summary

What do you think of when you hear the words digital art? Did you think about the last photo you took? It was probably taken with a digital camera, or even your phone. How did you share the picture with your friends and family? Do you ever make changes to pictures you see or take, whether by hand or on the computer? Sometimes adding funny pictures, words, or drawings to your sibling's or friend's face is the best part! All of these are part of the growing field of digital art and design. Discover what it means to be a digital artist or designer — who knows, it could be your dream job!

### Learning Objectives

- Define digital art and design.
- Distinguish between digital art and design and other art forms.
- Identify the traits of digital artists.
- Explore careers in digital art and design.

### Assignments

Unit 1 Text Questions	Homework	10 points
Unit 1 Activity	Homework	15 points
Unit 1 Discussion Assignment 1	Discussion	5 points
Unit 1 Discussion Assignment 2	Discussion	5 points
Unit 1 Quiz	Quiz	15 points

## Unit 2: Say Cheese!

---

### Unit Summary

Can you feel it? You are getting ready to become one in a long line of great artists. You are going to learn to be a photographer. Through the lens of your camera, you will capture the world around you. Click! A picture of you and your best friend. Click! A snapshot of your puppy sleeping in the sun. Click! A photo of your apartment building against a cloudless blue sky. When you shoot a picture, you capture a moment in time and preserve it for others. Studying the art of photography in this unit will teach you how to take a beautiful picture, to really make a work of art. Famous photographer Ansel Adams once said, “I hope that my work will encourage self-expression in others and stimulate the search for beauty and creative excitement in the world around us.” We hope this unit inspires the same kind of “creative excitement” in you!

### Learning Objectives

- Compare and contrast the early history of photography to modern day digital photography.
- Identify and apply the elements of art and principles of design in photography.
- Understand and use photographic composition.
- Explain the process of editing photography and describe the tools used to do it.

### Assignments

Unit 2 Text Questions	Homework	10 points
Unit 2 Activity	Homework	15 points
Unit 2 Discussion Assignment 1	Discussion	5 points
Unit 2 Discussion Assignment 2	Discussion	5 points
Unit 2 Quiz	Quiz	15 points

## Unit 3: The Evolution of 2-Dimensional Art

---

### Unit Summary

Where is digital art around you? On the wrapper of the burger from your favorite take out place? Rolling across your computer screen as you search the web? In the special effects of your favorite movie? Today, digital art is everywhere. But we are not the first society to value art. That tradition dates back to the Stone Age! Both 2D and 3D art play an important role in the artistic forms of the past and present. In fact, today's digital artists often need to know how to move back and forth between these two types of art. Fortunately, there are a lot of ways for artists to think about space in both dimensions. Are you ready to learn some of their techniques?

### Learning Objectives

- Describe 2D digital art and understand its uses.
- Compare and contrast digital 2D and 3D art.
- Understand and apply specific elements used in 2D digital design.
- Recognize the limitations of 2D digital art.

### Assignments

Unit 3 Text Questions	Homework	10 points
Unit 3 Activity	Homework	15 points
Unit 3 Discussion Assignment 1	Discussion	5 points
Unit 3 Discussion Assignment 2	Discussion	5 points
Unit 3 Quiz	Quiz	15 points

## Unit 4: Graphic Design

---

### Unit Summary

When you get advertisements in your mailbox, do you look at the products to see if there is something you like? The graphic artist who designed the flier certainly hopes you do! Graphic design combines the power of text and pictures to create persuasive images that communicate a specific message. It is used in advertising, entertainment, and politics. There are many ways in which art and language work together to educate and inform us. Sometimes that information provides important life-saving safety instructions, other times it is as simple as letting you know that your favorite restaurant has a new flavor of milkshake. One thing is for sure though—graphic art has a lot to say!

### Learning Objectives

- Define graphic design and its commercial uses.
- Recognize the tools used to create graphic art.
- Describe pop art and its influential artists.
- Identify street art and understand its purpose in society.

### Assignments

Unit 4 Text Questions	Homework	10 points
Unit 4 Activity	Homework	15 points
Unit 4 Discussion Assignment 1	Discussion	5 points
Unit 4 Discussion Assignment 2	Discussion	5 points
Unit 4 Quiz	Quiz	15 points

## Midterm Exam

---

### Learning Objectives

- Review information acquired and mastered from this course up to this point.
- Take a course exam based on material from the first four units in this course (Note: You will be able to open this exam only one time.)

### Assignments

Midterm Exam	Exam	50 points
Midterm Discussion Assignment	Discussion	5 points

## Unit 5: Magic in Motion: Animation

---

### Unit Summary

Have you ever stopped to count how many times you see animation in a day? Animation isn't only in movies and cartoons. It's in video games, interactive websites, smartphone interfaces, and so much more. If you stop and think about it, you'll likely be surprised by how much animation is in your day. Although animation started off simply, it has become a big part of popular culture. But don't blink! The animation industry is changing faster than the speed of motion in an animated short. However, with the right skills and mindset, you could become an innovator in this evolving art field!

### Learning Objectives

- Describe the different types of animation.
- Understand how digital animation is an art form based on technology.
- Explain the basic principles of 2D and 3D animation.
- Develop a basic understanding of intellectual property rights.

### Assignments

Unit 5 Text Questions	Homework	10 points
Unit 5 Activity	Homework	15 points
Unit 5 Discussion Assignment 1	Discussion	5 points
Unit 5 Discussion Assignment 2	Discussion	5 points
Unit 5 Quiz	Quiz	15 points

## Unit 6: Sound and Music

---

### Unit Summary

Whether it's in the background of a commercial, a dog barking on a television program, the squealing sound of tires during a movie, or a song streamed from your phone, we experience music—and the work of digital artists—every day. How often have you turned on your television or clicked open a music app just to have something playing in the background while you read, study, or do chores? Music is definitely part of our everyday lives, having evolved over time due to technology and our changing tastes. Like other forms of art, music tells us a lot about what is currently happening in society. When it comes to the digital arts, sound is another important piece of the puzzle.

### Learning Objectives

- Identify how digital music and sounds fit into the larger picture of digital art and design.
- Examine the roles of musicians and sound producers in digital design.
- Discover how music has evolved over time and how it is relevant to our lives today.
- Understand the role of technology in the production and sharing of music.

### Assignments

Unit 6 Text Questions	Homework	10 points
Unit 6 Activity	Homework	15 points
Unit 6 Discussion Assignment 1	Discussion	5 points
Unit 6 Discussion Assignment 2	Discussion	5 points
Unit 6 Quiz	Quiz	15 points

## Unit 7: How to Look at and Evaluate Art

---

### Unit Summary

What makes a piece of art famous? What do critics think about when they are deciding if something is good or not? You'll explore these questions and more as you learn how to think like an art critic. Artists have their own process when they are creating art, and they spend a lot of time expressing their ideas. Next, it's the critic's turn to decide how well the artist has done their job. Fortunately, critics have a set of standards that they use when viewing art, and you can use them too. After all, part of appreciating art is knowing what to look for when you are standing in front of it. This can also help you make your own art the best that it can be!

### Learning Objectives

- Analyze the form and content of art.
- Identify qualities of great art.
- Apply the principles of design when critiquing art.
- Use methods of critique to analyze your art.
- Understand suitable audience behavior when viewing art.

### Assignments

Unit 7 Text Questions	Homework	10 points
Unit 7 Activity	Homework	15 points
Unit 7 Discussion Assignment 1	Discussion	5 points
Unit 7 Discussion Assignment 2	Discussion	5 points
Unit 7 Quiz	Quiz	15 points

## Unit 8: Mixing Up Art

---

### Unit Summary

Think about your favorite piece of art. What colors did the artist use? Are they bright and bold to catch your attention? Or are they pale and soothing? A mixture of both? The artist probably thought a lot about color since it is one of the most important tools that artists have. Artists can also mix different types of art or materials to make a new work. Maybe they add 3D elements to a painting. Or perhaps they project a film onto a wall behind a sculpture as part of an exhibit. There is no end to the ways in which elements of art can be combined for innovative work! If you have a talent for this, include it in your portfolio. This sample of your work will be an important part of pursuing your career in the digital arts!

### Learning Objectives

- Describe the components of color.
- Create mixed and multimedia art.
- Articulate the intent of personal work.
- Put together a portfolio.

### Assignments

Unit 8 Text Questions	Homework	10 points
Unit 8 Activity	Homework	15 points
Unit 8 Discussion Assignment 1	Discussion	5 points
Unit 8 Discussion Assignment 2	Discussion	5 points
Unit 8 Quiz	Quiz	15 points

## Final Exam

---

### Learning Objectives

- Review information acquired and mastered from this course up to this point.
- Take a course exam based on material from units five to eight in this course – the last four units. (Note: You will be able to open this exam only one time.)

### Assignments

Final Exam	Exam	50 points
Class Reflection Discussion Assignment	Discussion	10 points
